

Print table

Print the table of a given number upto 10.

Input:

First line contains an integer, the number of test cases 'T'.

Each test case contains a number N whose table is to be printed..

Output:

Print the table of N upto 10.

Constraints:

$1 \leq T \leq 100$

$1 \leq N \leq 100$

Example:

Input:

1
9

Output:

9 18 27 36 45 54 63 72 81 90
