

Pattern Printing

Starting from one print a series of asterisk(*) till N terms with increasing order and difference being 1.

Input:

First line of the input is the number of test cases T. And first line of test case contain the value of 'N'.

Output:

Series of asterisk's is printed in a single line with one space between each iteration.

Constraints:

$$1 \leq T \leq 30$$
 $1 \leq N \leq 100$

Example:

Input:

5

1

10

5

6

2

Output:

*

* * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * *

* * * * *

* * * * * * * * * * * * * * *

* * * * * * * * * * * * * * * * * * * * *

* * *
