

## Sum of array elements

Given an integer array, find sum of elements in it.

### Input:

First line contains an integer denoting the test cases 'T'. Every test case contains an integer value depicting size of array 'N' and N integer elements are to be inserted in the next line with spaces between them.

### Output:

Print the sum of all elements of the array in separate line.

### Constraints:

$$1 \leq T \leq 100$$

$$1 \leq N \leq 100$$

$$1 \leq \text{Arr}[i] \leq 100$$

### Example:

Input:

2

3

3 2 1

4

1 2 3 4

Output:

6

10
