

## Lower case to upper case

Given a string containing only lowercase letters, generate a string with the same letters, but in uppercase.

### Input:

The first line of input contains a single integer  $T$  denoting the number of test cases. Then  $T$  test cases follow. Each test case consists of one line. The first line of each test case consists of a string.

### Output:

Corresponding to each test case, in a new line, print the string in uppercase.

### Constraints:

$$1 \leq T \leq 100$$

$$1 \leq \text{string length} \leq 50$$

### Example:

#### Input

2

geeks

geeksforgeeks

#### Output

GEEKS

GEEKSFORGEEKS
