

Addition of Two Numbers

Given two numbers a and b, return their sum.

Input:

The first line of the input contains T denoting the total number of testcases. Each testcase contains two space separated positive integers denoting the value of a and b.

Output:

Output the sum of a and b.

Constraints:

$$1 \leq T \leq 100$$

$$1 \leq a, b \leq 1000$$

Example:

Input:

1

2 3

Output:

5
